

# FibreCOVER

## Product Description

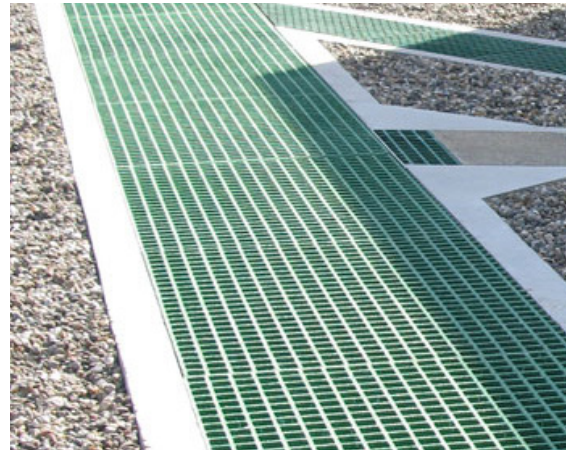

Solid Top and Open Mesh GRP trench covers suitable for general Pedestrian Access of 5kn/m<sup>2</sup> and Vehicle access up to 11.5T.

Specified by the UK's leading Utility/Power Companies and tested to meet A15, B125 and C250 loading requirements.

FibreCOVERS are lightweight, corrosion resistant, non-conductive and maintenance free. Fibregate can also offer a range of Pultruded interlocking deck and slab panels.

Thanks to our in-house design and fabrication capabilities, FibreGrid can tailor the GRP trench covers to suit any trenching layout.

If any on-site alteration is required, then our products are very easy to cut on site compared to their metallic or concrete equivalents.

## System Benefits
